# New Simple, Flexible Plans

Grow your client base, compete with large company technology, protect your business and client confidentiality.

ANY PLAN	LITE	GROWTH
<b>TRIAL</b> 1st Month No System Fee *	<b>£100</b> Monthly System Fee	<b>£250</b> Monthly System Fee
Get complete access to system benefits, all you need to get familiar with the system and gather client feedback! No obligation post trial.	Complete access for a reduced monthly cost with usage fees to help minimise monthly commitment in quieter periods.	All the benefits of the LITE Tier but more cost efficient usage fees for companies with larger volumes - usually over 50 orders per month.

\* Please note any Usage and Product fees still apply (see below)

All prices shown are in GBP exclusive of VAT.

Some setup information is required to brand and customise your system for use.

Bespoke pricing available for high volume users.

## WHAT SOME OF OUR USERS ARE SAYING...

“Working with Elan Technology has been a great experience. Elan has brought forward our system and reports to such a level, that we can compete with major competitors. We have found the technology speeds up our internal processes and saves us time. Some of our customers have remarked how much they like our new report format! We are really pleased we chose Elan Technology as our partners.”

---

**Jeremy O'Connor**  
Manager Director, Ocal's Ltd

“Using the Elan technology in order to service my clients and streamline my procedures has been an absolute godsend. The technology allows my clients to order a full suite of products all in one place and enables me to provide an online facility that rivals that of much larger search companies. Search reports and invoices are easily produced in the system and keep everything in one place.

As everything is automated, it cuts out the amount of work it takes each time a client places an order. Environmental and many other supplementary reports are all ordered automatically. No more ordering reports with different suppliers and receiving multiple invoices and reports to process - everything is handled by the system...”

---
